
Summer shorts 'n skorts

- Greg Norman Collection's Sunset printed skort for women promises to make waves on the course this summer. Made from 97 percent cotton and 3 percent spandex, the contrast waistband and pocket detail add just the right pop to the season's popular blue and coral color ways.

The skort has an 18-inch length, and the shark plate logo appears on the back right. Sizes 2-14 are available with a retail price of \$75.

The Bondi Beach collection for men keeps the same fashion color palette of blue, coral, navy and white that are reminiscent of its namesake, the popular beach near Sydney, Australia. The azure blue, single-pleated plaid tech short is made from 94 percent polyester and 6 percent spandex for comfort stretch. The short is moisture wicking with a UPF 50-plus and has a gripper tape inside waistband to help keep shirts tucked in.

Sizes available come in 30-42 with a suggested retail of \$69.
