

SPRING 2021

A GUIDE TO OUR TECHNOLOGIES

PlayDry is a leading moisture management system that wicks perspiration away from the skin and transports it to the garment's outer layer so it can evaporate into the air. You stay cool, dry and comfortable. Play Dry, Play Better.

Eco-driven polyester pique made from recycled oyster shells from the fishing industry; reduces waste by repurposing shells. Naturally inherent and permanent anti-static performance, anti-microbial & anti-odor.

The most comfortable technical fabric in golf. Industry-leading ML75 offers advanced moisture wicking performance with a luxury look and hand feel.

Weatherknight is a diverse collection of the latest Sun Protection, Heat Protection, Rain Protection, Wind Protection and Heat Retention technologies.
